Reunion

8483 (★)	1852 15c black on blue, Type III, unused without gum as issued, large margins all around, beautiful color, fresh and v.f. example of this premier world rarity, signed Brun, with his 2019 certificate. There are only a tiny number of unused examples known today. Reunion was supplied with their first adhesive stamps in 1852. They were General French Colonies issues that were given to all the Colonies of France. However there were no 15c or 30c stamps to fulfill the corresponding 30c and 45c rates. Because it would take a long time for any new stamps to reach Reunion, it was decided to print new stamps locally (a similar phenomenon occurred on other isolated islands throughout the world, such as Hawaii, Mauritius and Fiji, where the local printers produced the first stamps of the country, using much more primitive methods than more prosperous countries that had been producing stamps for several years.) These typographed stamps of Reunion were printed on very thin pelure paper that often had irregularities such as wood pulp inclusions and pinholes. They were unpopular with the local population, primarily due to the fact that they were issued without gum. A small number were used and the remainders were eventually destroyed, leaving scant few unused available today. Due to the crude printing methods, nearly every surviving example has a fault to some degree, with many possessing poor margins, several faults and/or repairs. A completely sound four-margin example offered here is quite remarkable (YT 1, €45,000) cat. \$39,000.....(1)	20,000.00

NEW ZEALAND

- 8589 1858 (21 June) FL (with contents) from a German missionary, posted in Otago and franked with a vertical bisect of the 1857 1sh green on blue paper, used in combination with a horizontal strip of 3x2p blue (lifted and replaced), canceled "18" in bars of Otago, supported by datestamp July 17, 1858 on back, rated 1(s)/4 (d) to England and marked "8" in manuscript (ship-letter rate), via London (Dec.20, 1858) to the Pastor of St. Stephani in Bremen, receiving boxed 22.12.58 arrival datestamp. No further charge had to be collected for a letter from New Zealand, forwarded via London to Europe at that time. This cover was originally in the "Pack" collection sold by Harmer, Rooke & Co. in December 1944. It has been cleaned since that time to remove some staining from the top and left hand side of the lettersheet. According to the accompanying Peter Holcombe certificate (1995) other stamps (2x2d) are missing and it is practically impossible to be sure if the strip of three belongs to this cover. Nevertheless, the certificate states "as such it is in my opinion genuine, the 1sh bisects are generally found on cover to England and are from two correspondences, all paying 6d rate of the period, but another cover is recorded in the "Postage Stamps of New Zealand", volume 1, page 61, bearing a bisect plus other adhesives (this may refer to this cover), the 1s./4d rate is correct and usually found on unstamped letters bearing a Crown Circle cancellation of various Offices, all dated 1853-55. This is the only letter that I can find to date used in 1858." An additional certificate from James van der Linden (1995) accompanies. An important rarity from New Zealand (SG 6a,10, £26,000 just for the bisect on cover)(6a,8) 4,500.00
